Crucial® DDR4 2933 MT/s Registered DIMMs Now Available

Higher module speeds assist in reaching optimal system performance and efficiency in the data centre

Product Highlights:

- Increased server performance
- Module speed of 2933 MT/s
- Available in densities up to 32GB
- Optimised for the latest Intel® Xeon® processor product families
- Compatible with OEM servers and OEM warranties¹
- 100% component and module tested to mission-critical server standards

Boise, ID and Glasgow, UK – August 28, 2018 – Crucial®, a leading global brand of memory and storage upgrades, today announced the immediate availability of DDR4 2933 MT/s Registered DIMM server modules, a new offering in its server memory product portfolio. Designed to keep servers running at full speed and peak efficiency in support of Intel’s next-generation Xeon processor product families, the new RDIMM modules enable IT users to get the most out of their server infrastructure deployments.

“Our new DDR4 2933 MT/s RDIMMs are designed to deliver the speed required to maximise the memory throughput in the next generation of servers,” says Teresa Kelley, VP & GM, Micron Consumer Products Group. “Today’s data centres are running memory intensive applications that require a higher degree of overall system performance, and our new RDIMM modules were designed to meet this next level of system performance.”

Crucial 2933 MT/s RDIMMs are designed for leading server platforms, compatible with OEM systems and warranties, and backed by a limited lifetime warrantyⁱⁱ. With module densities up to 32GB and speeds up to 2933 MT/s, Crucial DDR4 RDIMMs are available for purchase at uk.crucial.com and through select global partners. All Crucial memory is backed by a limited lifetime warranty. For more information about Crucial server memory offerings, visit uk.crucial.com/memory-server.

About Crucial

Crucial is a global brand of Micron Technology, Inc. Crucial solid state drives (SSDs) and memory (DRAM) upgrades are compatible with over 100,000 new and old desktops, laptops, workstations, and servers. Available worldwide at leading retail and e-tail stores, commercial resellers, and system integrators, Crucial products enhance system performance and user productivity. Learn more at uk.crucial.com.

About Micron

Micron Technology is a world leader in innovative memory solutions. Through our global brands — Micron, Crucial® and Ballistix® — our broad portfolio of high-performance memory technologies, including DRAM, NAND, NOR Flash and 3D XPoint™ memory, is transforming how the world uses information. Backed by nearly 40 years of technology leadership, Micron's memory solutions enable the world's most innovative computing, consumer, enterprise storage, data centre, mobile, embedded, and automotive applications. Micron's common stock is traded on the Nasdaq under the MU symbol. To learn more about Micron Technology, Inc., visit micron.com.
