

BALLISTIX[®] SPORT LT DDR4 SODIMMs

MORE SPEED. MORE PERFORMANCE. BETTER GAMING.

Ballistix[®] Sport LT DDR4 SODIMMs accelerate your gaming laptop or small form factor system by packing more aggression into every memory slot. Achieve faster speeds and run demanding games and applications with ease. Multitask at will with increased bandwidth. And strike first with better latencies, smoother integrated graphics, and reduced load times. **Feed your processor with the resources it needs and devour the competition with Ballistix gaming memory.**

Pack more memory into your system than ever before

Laptops and small form factor systems naturally have a limited amount of memory slots, but high density Ballistix DDR4 SODIMMs allow you to overcome this constraint and install more memory for faster performance. Higher densities enable higher capacities, which have plenty of room to handle demanding games and applications.

Enhance integrated graphics

With speeds that start at 2400 MT/s, Ballistix Sport LT DDR4 SODIMMs elevate integrated graphics performance. Since integrated graphics share system memory, faster memory helps increase frame rates and improves visuals on your rig.

Install in minutes

Installing is easy: just plug in the modules and get ready to win with little to no BIOS configuration. Using cutting-edge technology and Intel[®] XMP 2.0 profiles, we designed Ballistix Sport LT SODIMMs with the sole intent of creating affordable memory that's ready for action.

Go covert

With a stealth digital camo design, Ballistix Sport LT SODIMMs are your memory lieutenants. Keep your system cool and collected while demolishing the opposition.

PRODUCT HIGHLIGHTS

- Speeds start at 2400 MT/s
- Faster speeds and responsiveness than standard DDR4 memory
- Increased performance and frame rates for systems with integrated graphics
- Ideal for gamers and performance enthusiasts
- Black PCB design with digital camo features
- Easy plug-and-play installation
- Intel[®] XMP 2.0 profiles for easy configuration
- Optimized for the latest Intel processors
- Limited lifetime warranty

Micron[®] quality: Pro gamer reliability.

As the only major gaming brand that's built and tested from start to finish as part of a major memory manufacturer, Ballistix DRAM delivers a higher level of performance than regular PC gaming memory. For more than 40 years, we've engineered old-school DDR memory all the way to Ballistix DDR4 modules, which empower the future of gaming performance. Backed by competitive warranties, a hardcore community of fans, and a dedicated gamer support team, Ballistix memory is ready to take your in-game performance to the next level.

BALLISTIX® SPORT LT DDR4 SODIMMs
