

# BALLISTIX® TACTICAL TRACER RGB DDR4 GAMING MEMORY

## LIGHT UP YOUR GAME IN RGB

Performance isn't enough if you want to customize your gaming rig. Your system needs to stand out as you're crushing opponents. Game at high speeds while firing up Ballistix® Tactical Tracer RGB DDR4 gaming memory modules that match your system's color scheme. With RGB LEDs, these modules deliver all the features of the Ballistix Tactical series, like XMP profiles, stylish black PCB, and custom heat spreaders.

## Customize your rig with prismatic LEDs

With 16 LEDs in 8 zones built into the top edge of every Tracer module's design, Tactical Tracer RGB DDR4 modules light up your rig's color scheme and other components. Adjust LED colors and brightness, turn them on and off, switch up display patterns on the fly, or sync your memory's lights with other components using your motherboard's provided software.\*

## Modify your memory's look like never before

Take your system's look even further with different light bar options. The choice is yours!

- Get a diffused look with the Ballistix-labeled light bar
- Remove the light bar for maximum brightness
- Or 3D print your own for the ultimate customization

## Accelerate your game in style

Get faster with aggressive speeds up to 3200MT/s. Burst toward the top of leaderboards and knock out opponents with module densities up to 8GB and kit densities up to 32GB.

## PRODUCT HIGHLIGHTS

- Customize your rig's color scheme with 16 RGB LEDs in 8 zones on each module
- Select RGB LED patterns and adjust brightness
- Control LEDs with the Ballistix® M.O.D. Utility or motherboard RGB software†
- Create a custom light bar with your 3D printer and provided 3D files for the ultimate mod
- Speeds up to 3200MT/s
- AMD® Ryzen™ Ready
- Easily hit advanced speeds and timings with XMP profiles
- Limited lifetime warranty

## Command your memory with the Ballistix® M.O.D. Utility

See how your memory is performing at any moment with Ballistix M.O.D. (Memory Overview Display) Utility's detailed system information. Designed exclusively for high-end Ballistix modules, the M.O.D. Utility is a free downloadable tool that works with Microsoft® Windows®-based systems. Play full throttle while gathering intel on memory speed and temperature via an integrated thermal sensor, then use this info to enhance your performance.
